Maria Island Walk,  
Tasmania.

# MARIA ISLAND WALK

**R**ECOGNISED AS ONE OF Australia's truly outstanding experiences, the four-day Maria Island Walk is a delightful blend of rare wildlife, fascinating history, island tranquillity and gourmet delights.

Set on a beautiful island national park off Tasmania's east coast, small groups of just 10 guests and two friendly guides explore the pristine beaches, tall ancient forests and world heritage sites by day before, each night, relaxing at a mouthwatering candlelit dinner.

Maria Island is a Noah's Ark for rare animals and birds, some of which are found nowhere else. It is known as one of, if not the best, places in Australia to see wombats in the wild.
